

Proceedings of the Government of Karnataka

Sub: Declaration of additional 40 taluks as drought affected for the Kharif 2026 season (assessment period 1st June 2026 to 23rd September 2026).

- Ref:**
1. Integrated Drought Assessment by KSNDMC for the Period from 1st June to 23rd September 2026
 2. Notifications for undertaking Ground Truthing for additional 40 taluks dated 22-09-2026 and 23-09-2026.
 3. Notification of even number dated 27th August reg. declaration of 101 taluks as drought affected.
 4. Notification of even number dated 17th September reg. declaration of additional 23 taluks as drought affected.
 5. Notification of even number dated 22nd September reg. declaration of additional 53 taluks as drought affected
 6. Manual for Drought Management 2020

Preamble:

First Phase Assessment: Pursuant to the Ground Truthing Notification of even number dated 14th August 2026, Ground Truthing (GT) was undertaken in respect of 102 taluks that had qualified under Stage-II assessment. Subsequently, based on the integrated assessment and the findings of the Ground Truthing, 101 taluks were declared drought-affected vide notification dated 27.08.2026, of which 89 taluks were categorized as severely affected and 12 taluks as moderately affected.

Second Phase Assessment: KSNDMC carried out a scientific assessment of the drought parameters prescribed under the Manual for Drought Management, 2020, for the period from 1st June to 2nd September 2026 in respect of the remaining 139 taluks. Based on the KSNDMC Integrated Drought Assessment, comprising Trigger-1 (Mandatory Indicators) and Trigger-2 (Impact Indicators), 24 taluks qualified for Step-3: Ground Truthing. Consequently, Ground Truthing of these 24 taluks was undertaken. Subsequently, based on the integrated assessment and the findings of the Ground Truthing, 23 taluks were declared drought-affected vide notification dated 17.09.2026, of which 21 taluks were categorized as severely affected and 2 taluks as moderately affected.

Third Phase Assessment: KSNDMC carried out a scientific assessment of the drought parameters prescribed under the Manual for Drought Management, 2020, for the period from 1st June to 16th September 2026 in respect of the remaining 115 taluks. Based on the KSNDMC Integrated Drought Assessment, comprising Trigger-1 (Mandatory Indicators) and Trigger-2 (Impact Indicators), 53 taluks qualified for Step-3: Ground Truthing. Consequently, Ground Truthing of these 53 taluks was undertaken. Subsequently, based on the integrated assessment and the findings of the Ground Truthing, 53 taluks were declared drought-affected vide notification referred at No.2 above, of which 51 taluks were categorized as severely affected and 2 taluks as moderately affected.

h

Fourth Phase Assessment: As stated in the earlier notification, drought assessment is a continuous process and is required to be undertaken until the end of the South-West Monsoon period. Accordingly, KSNDMC has undertaken a further scientific assessment of the drought parameters prescribed under the Manual for Drought Management, 2020.

The assessment was carried out for the period from 1st June to 21st September and 1st June to 23rd September, in respect of the remaining 62 taluks. Based on the KSNDMC Integrated Drought Assessment, comprising Trigger-1 (Mandatory Indicators) and Trigger-2 (Impact Indicators), additional 11 taluks have qualified for further assessment for the period from 1st June to 21st September, while additional 29 taluks have qualified for further assessment for the period from 1st June to 23rd September.

Consequent to the notifications referred to at Sl. No. 2 above, Ground Truthing (GT) was undertaken through the prescribed mobile application, covering 450 villages across 40 taluks. The findings of the Ground Truthing exercise were shared with KSNDMC and duly incorporated into the Integrated Drought Assessment, in accordance with the three-stage methodology prescribed under the Manual for Drought Management, 2020, comprising Stage 1 – Mandatory Indicators, Stage 2 – Impact Indicators, and Stage 3 – Ground Truthing.

Based on the Integrated Drought Assessment and the findings of the Ground Truthing exercise, 40 taluks have qualified for declaration as drought affected, of which 24 taluks have been categorized as severely affected and 16 taluks as moderately affected.

As per Clause 3.4 of the Manual for Drought Management, 2020, the State Government is required to declare drought through a notification clearly specifying the geographical extent and the administrative units affected, such as taluks, along with the intensity of drought, categorized as Moderate or Severe.

Accordingly, having considered the Integrated Drought Assessment and the findings of the Ground Truthing exercise, the State Government hereby issues the following Order.

Government Order No. RD 586 TNR 2026 (Part 1),
Bengaluru, dated: 07-10-2026

In the circumstances explained above, and based on the scientific assessment undertaken in accordance with the parameters prescribed under the Manual for Drought Management, 2020, sanction of the Government is hereby accorded for the declaration of additional 40 taluks, as detailed in the Annexure, as drought-affected for Kharif 2026 season. Of these 40 additional taluks, 24 taluks are categorised as severely drought-affected and 16 taluks as moderately drought-affected, as per the assessed severity of drought. The declaration shall take effect immediately from the date of this order and remain in force for a period of six months, unless revoked earlier by the State Government.

The Deputy Commissioners-cum-Chairpersons of the District Disaster Management Authorities of declared taluks are authorised to undertake necessary drought relief and response measures in accordance with the prevailing SDRF items and norms of assistance.

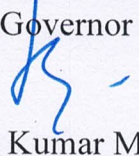

Further, the Commissioner Agriculture, Director Horticulture and the concerned Deputy Commissioners are directed to undertake a joint survey of crop loss in the

drought-affected taluks and submit the assessment reports to the Government in the prescribed format forthwith.

It is reiterated that KSNDMC will undertake another round of drought assessment at the end of the Kharif 2026 season. Accordingly, based on the outcome of the prescribed assessment process and Ground Truthing, notifications for declaration of additional taluks as drought affected will be issued, wherever warranted.

By Order and in the name of the
Hon'ble Governor of Karnataka

(Manoj Kumar Meena, IAS)
