through broadband in rural areas.

The Department of Telecommunications, Govt of India has informed that it is actively engaged in operationalizing connectivity for the 2.5 lakh Gram Panchayats (GPs). Work has also commenced for achieving the target of fiber connectivity for all inhabited villages . In a recent high level meeting on the subject held on 17.11.2020 , the D/o of Communications has informed that Fibre-to-the Home (FTTH) connections can be given to banks /branches at Gram Panchayat (GP) level where connectivity is not available or Wi-Fi services can be leveraged at such places.

2. In this context , it is proposed to provide to D/o Telecommunications the list of Gram Panchayats (GPs) where opening/operation of bank branches /BC manning banking outlet is hampered due to lack of telecom connectivity. This would facilitate prioritization of areas to be covered under BharatNet programme.

3. Accordingly it is requested that the details of Gram Panchayats (GPs) in your State/UT where inadequate telecom connectivity is hampering opening/operation of bank branches /BCs manning banking outlet bank may be provided in the following format . For this purpose , information may be collected from banks as well as State/UT Governments: :

| Sl. No. | Name of the State | Name of the District | Name of the Gram Panchayat (GP) | Remarks |

Summary of findings- Study on Credit-Deposit Ratio in the State of Karnataka

1. CD ratios during the past 10 financial years has been fluctuating in all the 9 states considered in this study but the CD ratio of Karnataka has been the most stable. The range between the highest and lowest values of CD ratios during the last 10 years was narrowest in case of Karnataka.
2. A decline was observed in the CD ratios across all the nine states from the year 2019 to 2020, except in the states of Andhra Pradesh, Telangana and Madhya Pradesh, where there was a fractional increase. The year on year variations had been much higher in other years for other states. However, among all the nine states, Karnataka experienced the largest 5.13% percentage points decline in the CD ratio during 2019-2020 from a 10 year high at 79.90% (2019) to 74.77% (2020).
3. The variation in the CD ratios for Karnataka between Sept 2019 and Sept 2020 (Y-o-Y) and between Mar 2020 and Sept 2020 for the state are -2.75% and -2.85% respectively. Thus, during the pandemic period, while CD ratios had declined across all the states, the decline in Karnataka was the least among the eight states (except Kerala). During the pandemic, the CD ratio of Karnataka remained comparatively stable and closest to its 10-year average.
4. As at the end of September 2020, the CD ratio of Karnataka stood at 71.92% with 20 districts having more than the state CD ratio. Bengaluru Urban had a CD ratio of 71.70%. Three districts, viz. Dakshina Kannada, Uttara Kannada and Udupi had CD ratios less than 60% while three other districts, i.e., Davanagere, Raichur and Yadgir had CD ratios above 100.
5. In terms of total business (deposits and advances) Bangalore Urban district constitutes a predominant position with 62% of the total business in the State. Accordingly, CD ratio of Bangalore Urban and its variation has a significant impact on the State's CD ratio. One of the main reasons behind low CD ratio of Bengaluru Urban, as confirmed by the major banks, is equity-funded IT/ IT enabled services sector reducing dependence on bank credit as also large inflows in form of foreign investments which reflect in large deposit base in the district.
6. The Top three banks, viz. SBI, Canara Bank and HDFC Bank constitute about 46% of the total business in the State. However, the CD ratio of SBI, Canara Bank and

A8

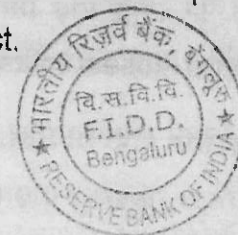

HDFC Bank stood at 61.59%, 59.15% and 52.91% respectively, as on 30.09.2020, which was much lower than the State average of 71.92%.

7. As on September 30, 2020, 31 banks had CD ratio more than that of State CD ratio while 11 banks had CD ratio less than the State CD ratio. Out of the 11 banks, 7 banks had CD ratio less than 60 percent.

8. As reported by the banks, SME business is mainly focused on services sector where large corporates do not avail bank finance and start-ups meet their requirements mostly from sources like venture capital. Large number of software companies and start-ups have high concentration of deposits from Angel Investors/ Foreign Direct Investments and do not require loans. Also, high percentage of bulk deposits from Government departments in Bangalore Urban, high percentage of HNI customers and pensioners are also contributing to disproportionately high deposit base in the State.

9. Commercial reasons, such as large NPAs in agriculture segment and consequent notional write off of the fully provided loss accounts resulted in wiping off the incremental growth in this segment, are also reported.

10. In order to improve CD ratio for the State, the ratio would need to be improved for SBI, Canara Bank and HDFC Bank in Bengaluru Urban district.

### A Study on Credit-Deposit Ratio in the State of Karnataka

#### 1. Background

The Credit-Deposit (CD) ratio is the total credit disbursed to total deposits mobilized. Higher the amount of loans and advances disbursed as proportion of the deposits mobilized, higher is the ratio and vice-versa. CD ratio can have varied interpretations. A falling CD ratio can be an indicator of excess liquidity because of higher deposits with the banking system or lack of deployment opportunities in the credit markets. It can also indicate shift in funding pattern as corporates mobilise more funds through bonds rather than loans. Structural factors such as a predominantly equity-funded IT services sectors, reducing dependence on bank borrowings, or foreign remittance driven heavy deposit inflows, could keep CD ratio at lower levels for longer periods. It could indicate commercial considerations as rising NPAs lead to tightening of lending standards by the banks. It could also point to increasing dependence on informal/ non-bank sector for sourcing funds. Various other interpretations like growth potential, conducive government policies, enabling ecosystem, etc., could also be drawn from rather simplistic yet profound indicator, i.e., CD ratio.

In this backdrop, while reviewing the CD ratio of Karnataka at the 152<sup>nd</sup> SLBC meeting held on December 28, 2020, the Chief Secretary, expressed concern on the decline in CD ratio of the State and requested the Reserve Bank of India to compare the CD ratio movement with other states and analyse the reasons for fall in the CD ratio. He also advised to conduct meeting with the major banks to resolve the negative trend on the basis of bank wise/sector wise/district wise data analysis.

Accordingly, a study has been carried out by the department to understand the underlying reasons behind the lower CD ratio in the State.

## 2. Objective

To study the downward trend of CD ratio in Karnataka, compare such trends in the movements with those of the other states and to analyse the reasons thereof.

## 3. Methodology

To assess the yearly and quarterly variations of the CD ratio in Karnataka, a comparison of the CD ratios with eight other comparable states, for the past ten years and six quarters from June 2019 to September 2020 has been considered. Four states from the southern region (Kerala, Tamil Nadu, Andhra Pradesh & Telangana) and four states similar to Karnataka in size and economic development (Madhya Pradesh, Rajasthan, Gujarat and Maharashtra) have been taken for the comparison purpose.

The core data on deposits, advances and CD ratio for the last ten years from 2011 to 2020 and quarterly data from June 2019 to September 2020 were sought from the eight offices of the Reserve Bank of India. The source data was provided by the respective SLBCs of the States including that for Karnataka. For Karnataka additional data like bank-wise and district-wise data were obtained from SLBC, Karnataka for deeper study. The quality of data used in the study is thus dependent upon the quality of the data furnished by the SLBCs.

For a better understanding of the operational challenges faced by the banks in achieving better CD ratios, inputs were taken from SBI, Canara Bank and HDFC Bank, which comprise almost half of the total loans and deposits in Karnataka,

## 4. Analysis

The report comprises of three parts; i) an overview of the yearly trends for past ten years and quarterly trends for the latest six quarters in the CD ratios of the nine states including Karnataka; ii) district-wise position of CD ratio in Karnataka iii) bank-wise position of CD ratio in Karnataka.

### i) Overview of the yearly and quarterly trends

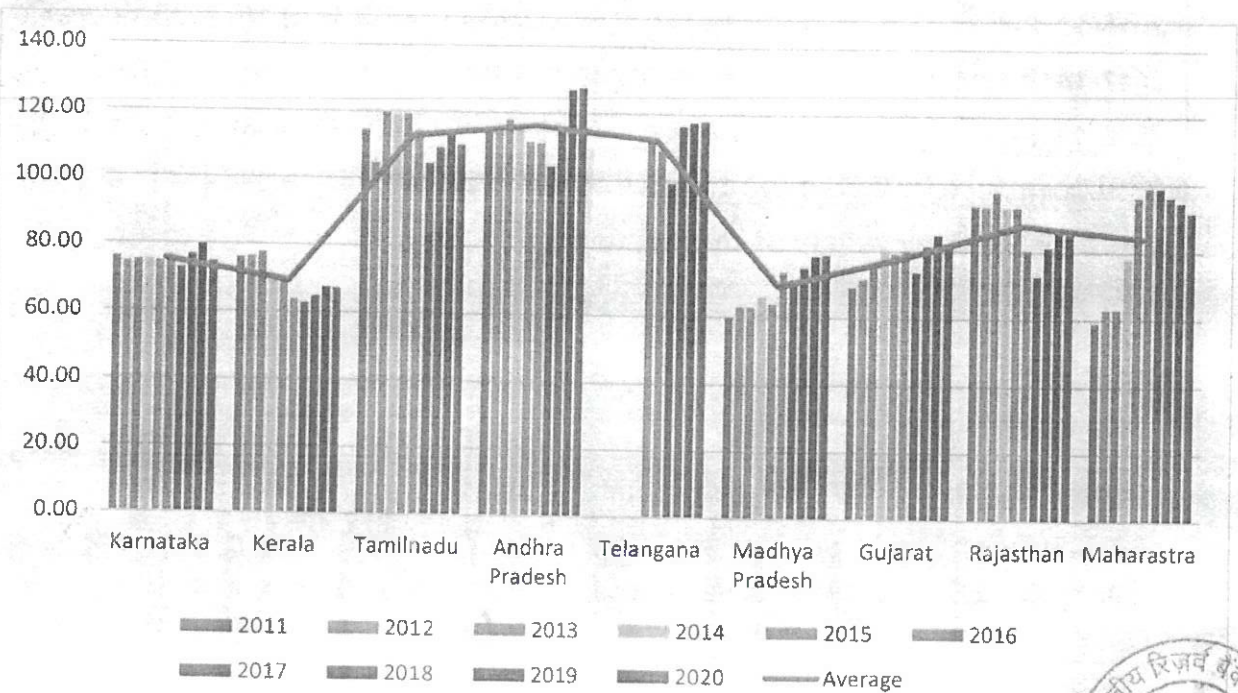

The CD ratios of Karnataka, Kerala, Tamil Nadu, Andhra Pradesh, Telangana, Madhya Pradesh, Gujarat, Rajasthan and Maharashtra for the last 10 years, from 2011 to 2020 are summarised in Table 1. The yearly variations are shown in Table 2.

Chart 1: 10-year trend in CD ratio of the States

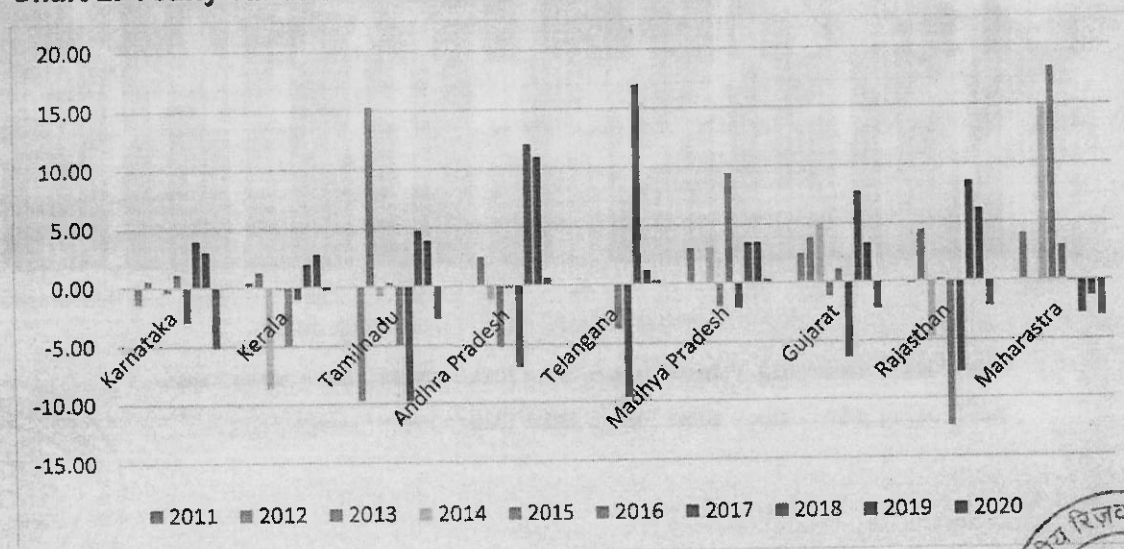

**Observations:** While the CD ratios during the past 10 financial years were fluctuating in all the 9 states, it had been most stable in Karnataka (Table 1). The average CD ratio of Karnataka for last 10 years stood at 75.61% which was higher compared to that of Kerala (69.45%) and Madhya Pradesh (69.20%) but has remained lower than all the other six states. The difference between the highest and lowest values of CD ratios, state-wise, is varying from a minimum of 6.98% (Karnataka) to a maximum of 40.10% (Maharashtra). A decline was observed in the CD ratios across all the nine states from the year 2019 to 2020, except in the states of Andhra Pradesh, Telangana and Madhya Pradesh, where there was a fractional increase.

**Chart 2: Yearly variations in CD ratios**

**Observations:** The year on year variations had been much higher in other years for other states (Table 2/ Chart 2). However, among all the nine states, Karnataka experienced the largest 5.13% percentage points (pp) decline in the CD ratio during 2019-2020 from a 10 year high at 79.90% (2019) to 74.77% (2020).

### Recent Quarters' Trends

In order to understand the trends in the recent period, a similar comparison of the data from June 2019 (Q1- 2019-20) to September 2020 (Q2 - 2020-21) of other states with that of Karnataka was undertaken (Tables 3 and 4/ Chart 3 and 4). Data of Madhya Pradesh was not available for comparison.

**Chart 4: YoY and QoQ Variations during 2019-20**

**Observations:** It may be seen that CD ratios had declined for all the states from September 2019 to September 2020 (Y-o-Y) with a marginal positive for Kerala and Telangana. During the pandemic period, CD ratios had declined across the eight states from March 2020 to September 2020. However, during the period, the decline in Karnataka was the least among the eight states (except Kerala). Even during the pandemic, the CD ratio of Karnataka remained comparatively stable and closest to its 10-year average.

ii) District-wise CD ratio

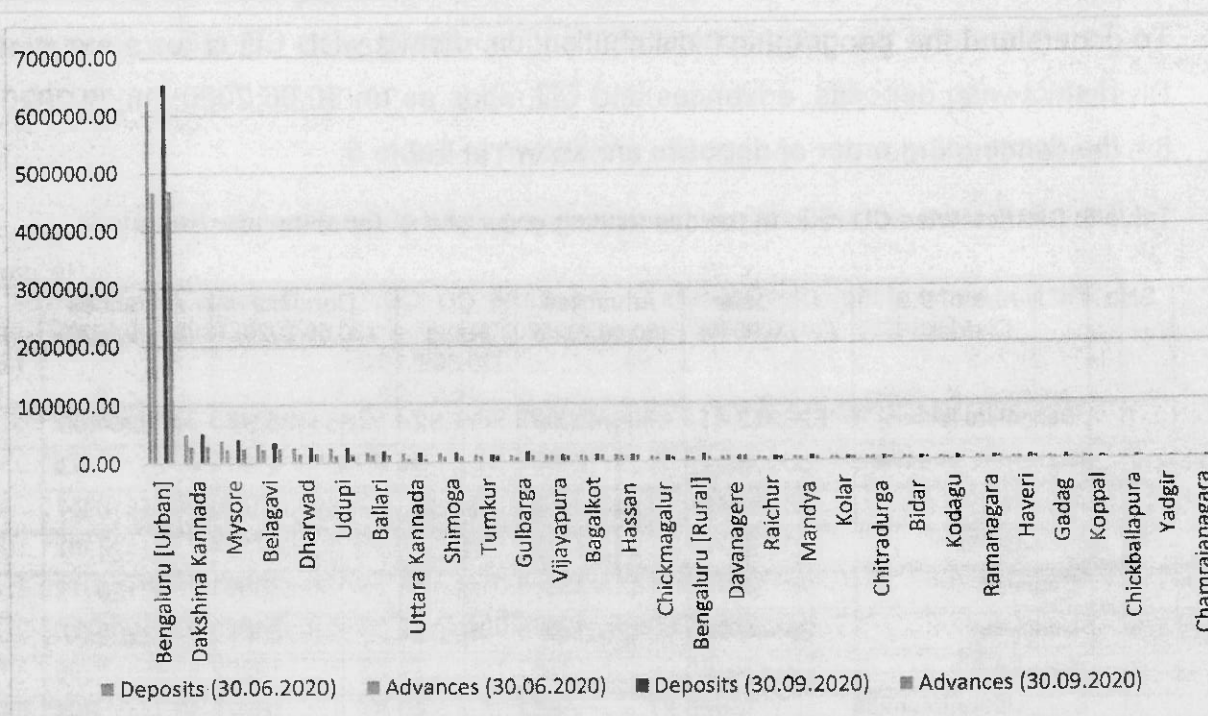

To understand the geographical distribution, district wise CD ratios were examined. District-wise deposits, advances and CD ratios as on 30.06.2020 and 30.09.2020 in the descending order of deposits are shown in Table 5:

#### Reasons for Low CD ratio of Dakshina Kannada, Udupi and Uttara Kannada

The reasons for low CD ratio as stated by the banks during the meetings are as follows. Dakshina Kannada district is stated to be receipt of NRI deposits coupled with

low demand for developmental credit. Agriculture and MSME form potential sectors for providing advances in the district. In agriculture, 85% of crops are reportedly plantation crops which do not require any large investments. Other 15% of farmers are covered under KCC limits. Thus, there is no demand for developmental credit.

In Uttara Kannada, the reason for low CD ratio is stated to be the huge Government deposits in the banking system that pertain to various projects, such as Sea Bird Naval Base Project, NPCIL Kaiga Project, National Highway Project Funds and land compensation amount received especially in the FYs March 2013 and March 2015. Uttara Kannada is covered by more than 80% of forest area, resulting in reduced area available for economic activity. The district lacks large industrial and MSME units. Further there is lack of clear title deed and form 3/E-Swasthu issues for the mortgaged loans.

In Udupi district also, it is stated that a majority of the branches are deposit oriented as they receive deposits from NRIs. As lands are highly fragmented, scope for direct agricultural advances is less. Further there are no big industries in the district barring a few cashew and fish processing industries.

**Observations:** The Top three banks, viz. SBI, Canara Bank and HDFC Bank Ltd. constitute 46% of the total business in the State (Table 6). State Bank of India had the highest share of deposits (21.08% and 20.60%) and advances (17.54% and 17.65%) in the State followed by Canara Bank and HDFC Bank Ltd as on 30.06.2020 and 30.09.2020, respectively. The CD ratio of the three banks in that order stood at 61.59%, 59.15% and 52.91% as on 30.09.2020.

As on June 30, 2020 and September 30, 2020, 31 banks had CD ratio more than that of State CD ratio while 11 banks had CD ratio less than the State CD ratio. As on June 30, 2020, 6 banks viz. HDFC Bank Ltd., ICICI Bank Ltd., Karnataka Bank Ltd., Rathnakar Bank Ltd., T N Mercantile Bank Ltd. and Industrial Co-operative Bank Ltd. had CD ratio less than 60%. Whereas as on September 30, 2020, 7 banks i.e. Canara Bank and 6 banks mentioned earlier had CD ratio less than 60%.

**Summary of Findings:**

1. CD ratios during the past 10 financial years has been fluctuating in all the 9 states considered in this study but the CD ratio of Karnataka has been the most stable. The range between the highest and lowest values of CD ratios during the last 10 years was narrowest in case of Karnataka.
2. A decline was observed in the CD ratios across all the nine states from the year 2019 to 2020, except in the states of Andhra Pradesh, Telangana and Madhya Pradesh, where there was a fractional increase. The year on year variations had been much higher in other years for other states. However, among all the nine states, Karnataka experienced the largest 5.13% percentage points decline in the CD ratio during 2019-2020 from a 10 year high at 79.90% (2019) to 74.77% (2020).
3. The variation in the CD ratios for Karnataka between Sept 2019 and Sept 2020 (Y-o-Y) and between Mar 2020 and Sept 2020 for the state are -2.75% and -2.85% respectively. Thus, during the pandemic period, while CD ratios had declined across all the states, the decline in Karnataka was the least among the eight states (except Kerala). During the pandemic, the CD ratio of Karnataka remained comparatively stable and closest to its 10-year average.
4. As at the end of September 2020, the CD ratio of Karnataka stood at 71.92% with 20 districts having more than the state CD ratio. Bengaluru Urban had a CD ratio of 71.70%. Three districts, viz. Dakshina Kannada, Uttara Kannada and Udupi had CD ratios less than 60% while three other districts, i.e., Davanagere, Raichur and Yadgir had CD ratios above 100.
5. In terms of total business (deposits and advances) Bangalore Urban district constitutes a predominant position with 62% of the total business in the State. Accordingly, CD ratio of Bangalore Urban and its variation has a significant impact on the State's CD ratio. One of the main reasons behind low CD ratio of Bengaluru Urban, as confirmed by the major banks, is equity-funded IT/ IT enabled services sector reducing dependence on bank credit as also large inflows in form of foreign investments which reflect in large deposit base in the district.
6. The Top three banks, viz. SBI, Canara Bank and HDFC Bank constitute about 46% of the total business in the State. However, the CD ratio of SBI, Canara Bank and

HDFC Bank stood at 61.59%, 59.15% and 52.91% respectively, as on 30.09.2020, which was much lower than the State average of 71.92%.

7. As on September 30, 2020, 31 banks had CD ratio more than that of State CD ratio while 11 banks had CD ratio less than the State CD ratio. Out of the 11 banks, 7 banks had CD ratio less than 60 percent.

8. As reported by the banks, SME business is mainly focused on services sector where large corporates do not avail bank finance and start-ups meet their requirements mostly from sources like venture capital. Large number of software companies and start-ups have high concentration of deposits from Angel Investors/ Foreign Direct Investments and do not require loans. Also, high percentage of bulk deposits from Government departments in Bangalore Urban, high percentage of HNI customers and pensioners are also contributing to disproportionately high deposit base in the State.

9. Commercial reasons, such as large NPAs in agriculture segment and consequent notional write off of the fully provided loss accounts resulted in wiping off the incremental growth in this segment, are also reported.

10. In order to improve CD ratio for the State, the ratio would need to be improved for SBI, Canara Bank and HDFC Bank in Bengaluru Urban district.

Sub: collocating of Bank of Borada's Bidadi branch with Kenchanakuppe Branch.

With respect to the captioned subject, vide gazette Notification Vijaya bank was amalgamated with bank Baroda from 01-04-2019. As a part of rationalization of branches we had received a letter from bank of Borada, Regional office, Mandaya on 11-12-2021 seeking permission from DCC/DLRC for collocation of their branches which are located right opposite to each other barely 100 meters in Bidadi town.

According, we have placed the matter in DCC/DLRC meeting conducted on 22/01/2021 which was chaired by chief executive officer, Ramanagara vide agenda No.4, after elaborate discussion of pros & cons and RBI guidelines on shifting/collocating/ merger or closure of rural branches committee has given approval for the same with following conditions.

- I) customer service should not be affected and best infrastructure should be provided under single umbrella.
- II) Bank should ensure that customer of the branch, which is being collocated, are informed well in time before actual collocating/shifting of the branch, so as to avoid inconvenience to them.
- III) Further, bank should ensure that they continue to fulfil the role entrusted to these branches under the government sponsored programme and DBT schemes.
- IV) Committee has asked bank to conduct survey to open new branch in unbanked area in Ramanagara district.

For further process at your end we are enclosing proceedings of last DCC/DLRC meeting along with this letter.
