Sir/ Madam,

FinTech has the potential to profoundly transform the financial landscape, provide consumers with a greater variety of financial products at competitive prices, and help financial institutions become more efficient. However, the increasing popularity of FinTechs could exacerbate data use, protection and privacy concerns. The rapid and transformational changes brought on by FinTech need to be monitored and evaluated so that regulators and banks can keep up with the underlying technological flux.

In order to discuss the concerns that emanate from mushrooming of Fintech entities without adequate oversight, either directly or in partnership with the banks, SLBC is requested to include 'Fintech adoption' as an agenda matter in SLBC forum.

With Warm Regards,
